DECEIVING IS BELIEVING

IMMERSIVE MOUT SYSTEMS

Fleet Solutions Group (FSG) has partnered with MW Defense Systems to offer a cost effective, immersive training system, with the flexibility of MIPR funding or contract award. As a federal agency, FSG offers this funding vehicle to support your mission. Fleet Solutions Group serves as the Prime for the coordination of training site development and fabrication, with multiple operating locations along the East and West coasts.

MW developed e Photo-Immersive Realistic Aides for Environments (P.I.R.A.T.E.™) system to provide accurate re-creation of situational realism and reconfiguration to handle the multiple training scenarios required for Military Operations on Urban Terrain.
